NCR Electronic Calculators Designed,

XD64/Printing Pubs Dept 6/71

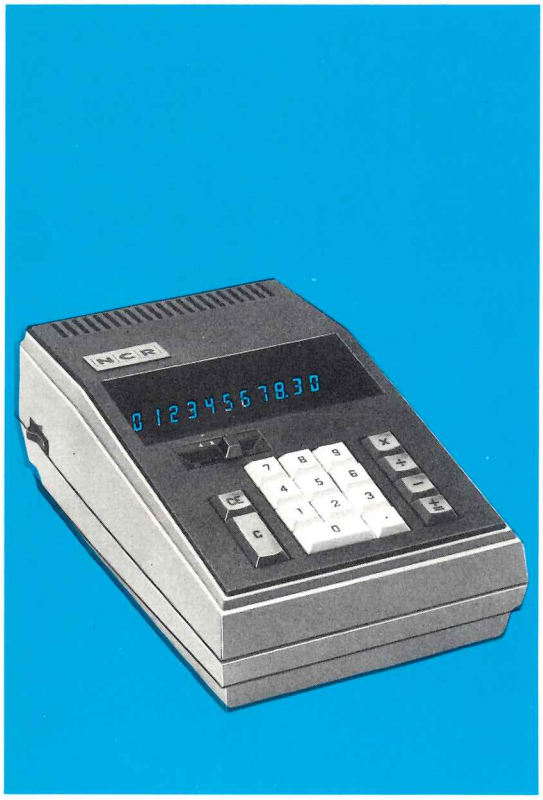
Try an NCR 18 Electronic Calculator on your calculating and figuring jobs. You'll be amazed how fast and simply you can handle almost any kind of mathematical computation on an NCR 18.

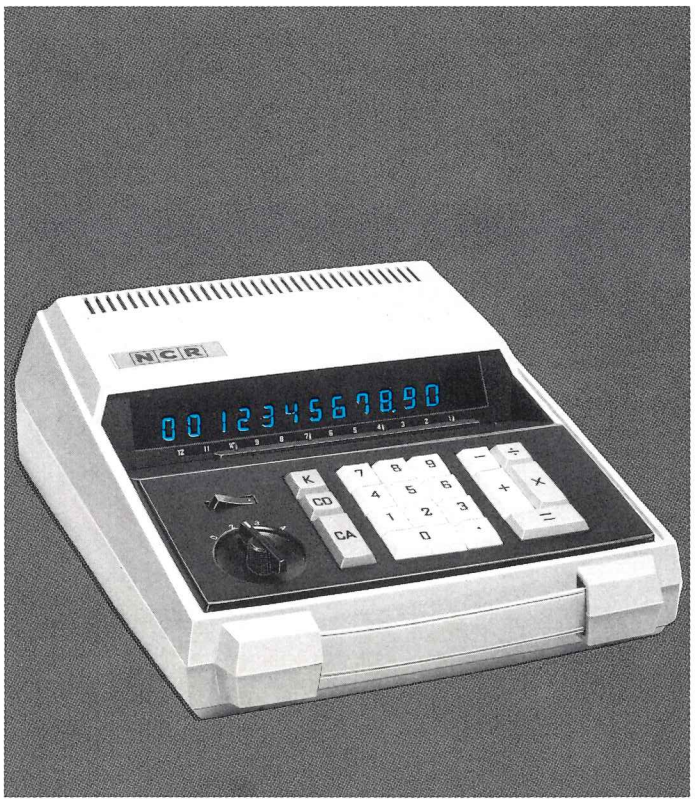
18-15

Here's the petite member of the NCR 18 Calculator family. Only 3.7″ high, 6.3″ wide, and 10.8″ deep. But this small model is surprisingly capable. Performs the four basic arithmetic functions . . . addition, subtraction, multiplication and division, with 12 digits of display; also chain multiplication and chain division. And the 18-15 has automatic credit balance with negative signal, and display "overflow" signal. The NCR 15 is the perfect, truly portable calculator for executives, students, office, home. Now you can do your figuring jobs right on the job . . . with the NCR 18-15. Weighs only 4.4 pounds.

18-12

Here is an ideal model for office, store or factory. It is low-priced and so easy to operate. Just what you need for checking invoices, figuring job costs, or calculating payroll. "Constant Key" eliminates re-entering amounts used several times in a calculation. Algebraic logic provides chain multiplication and division. Saves many key strokes. A built-in handle makes it so easy to carry this unit wherever needed. Weighs less than 7 pounds.





Fast · Quiet

Priced for any Business or Profession

Advanced integrated circuitry gives NCR 18 Calculators a high standard of performance, speed, reliability and compactness never before possible.

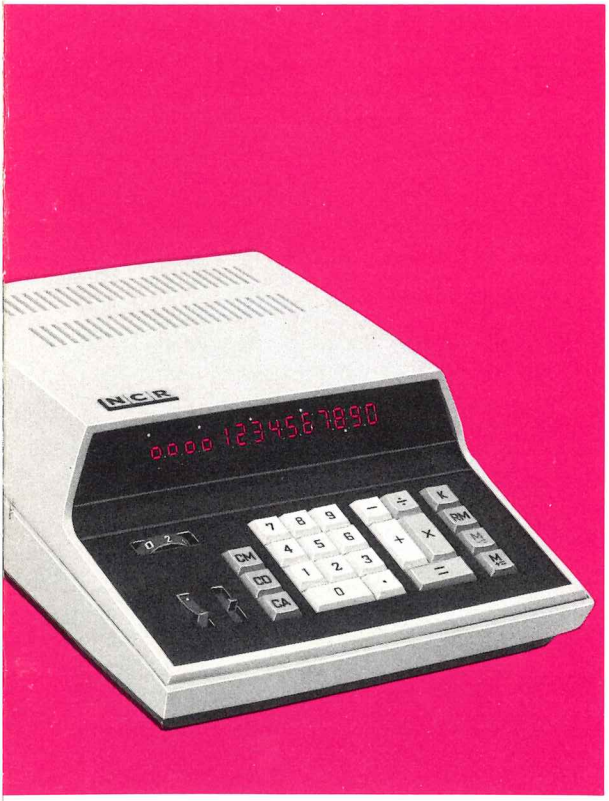
18-1

Here is another general purpose calculator, with one memory for accumulating totals on such applications as invoicing, payroll, distribution. Amounts in memory can be "recalled" with the touch of a key, for further calculation, without re-entry on keyboard. An incorrect entry can be "erased" with a touch of the "CD" Key. The 18-1 "remembers" constant multipliers automatically, and constant divisors with K key depressed. Weighs only 8.8 pounds.

18-2 18-3

The model 18-2 shown below has all the features essential to greater flexibility in solving general business and technical problems. The 18-2 has two memories, used to accumulate totals or to store amounts which can be recalled in later steps of calculation. Power interruptions cannot erase amounts stored in core memories.

The model 18-3 has all these same features and capabilities, PLUS automatic square root, which is literally as simple and fast as pushing a button. Ideal for statistical and engineering problems, as well as general problems. Both models weigh 15.4 pounds.



· Durable · Simple · Compact · Portable

18-30 ELECTRONIC PRINTING CALCULATOR

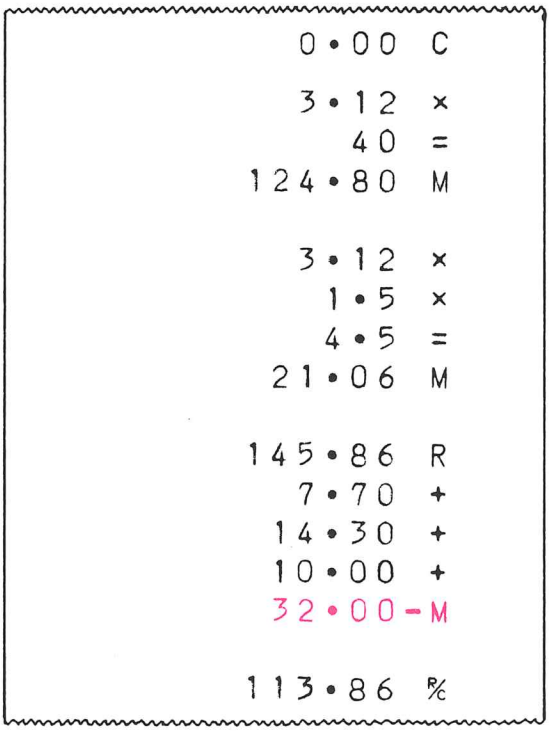
The NCR 18-30 gives you electronic calculating speed . . . PLUS printed proof. This general purpose printing calculator, with 12-digit capacity, swiftly handles a variety of problems, increases productivity in any office.

With a memory for extended calculations and accumulating totals, the 18-30 is ideally suited to such applications as invoicing, proration, payroll, distribution, estimating job costs, and interest calculation.

In addition to the advantages of high speed electronic calculating, you also get instant two-color printing, with identification of every item on the LARGE, EASY-TO-READ PRINTED TAPE. (Actual size shown below.)

Other features include: *Decimal Place Selector,* with up to six places in the printed answer. *Automatic Round-Off or No Round-Off. High-Speed Drum Printer.* Prints instantly, three lines per second. *Constant Key* retains constants in multiplication and division. *Automatic Paper Feed Key.* Operator convenience Lights: Power on, overflow warning, overflow, memory. "Clear Entry" Key. Easy Ink Ribbon Replacement.

The 18-30 is truly compact for a printing calculator. Weighs 17.6 pounds, and is only 9.8″ wide, 7½″ high and 14″ long.



Priced for any Business or Profession

NCR Electronic Calculator Features

MODEL	18-15	18-12	18-1	18-30	18-2	18-3

PRINTER	No	No	No	Yes	No	No

Guaranteed for one full year

NCR 18 Electronic Calculators are guaranteed for one full year by The National Cash Register Company, known throughout the world for business machines of highest quality.

THERE'S AN NCR PRODUCT TO FIT YOUR NEEDS

In addition to a choice of electronic calculators, NCR also offers a line of ten-key and full keyboard adding machines, and bookkeeping machines.

No matter what your calculating, figuring or bookkeeping needs may be, there is an NCR product to fill your specific requirements.

Standing back of every NCR product is over 80 years experience in working with business in developing quality business machines and systems. No matter where you are located, sales and service are available.

For more information, without obligation, contact your nearest NCR office. You'll find it listed in your telephone directory.
